

Barbara L. Smith, M.D., Ph.D. received her undergraduate training at Massachusetts Institute of Technology, an M.D. from Harvard Medical School's Harvard/MIT Division of Health Sciences and Technology and a Ph.D. from Harvard University Graduate School of Arts and Sciences. Her thesis work was conducted at the Dana-Farber Cancer Institute. She received her training in surgery at the Brigham and Women's Hospital. She is the Director of the Breast Surgery Fellowship Program at the Massachusetts General Hospital/Brigham & Women's Hospital/Dana-Farber Cancer Institute.

Dr. Smith's research activities have focused on reducing the extent of surgery and radiation required to treat breast cancer, diagnosis and treatment issues in young women with breast cancer, and three dimensional breast anatomy as it relates to breast surgery and pathologic analysis of specimens. She has been a Visiting Professor at Sun Yat-sen University in China since 2006 where she has assisted in development of multidisciplinary breast cancer programs and clinical research activities including nipple sparing mastectomies.

Dr. Smith is one of the most accomplished Breast Cancer Surgeons and Researchers in the country!
